

MAXIMIZE GROWTH POTENTIAL

With shipping software that's a true extension of your Acumatica ERP

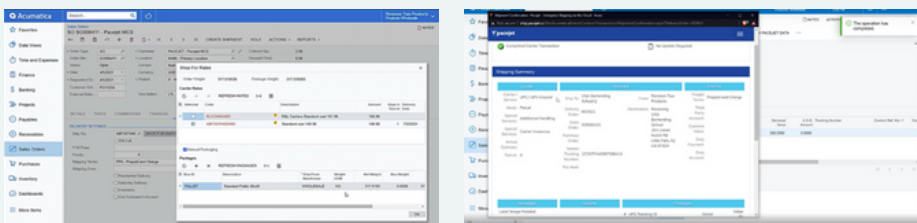

Get the highest possible ROI on your Acumatica investment with the only transportation & shipping software integration Fulfilled by Acumatica. From basic rate shopping, to more complex pack-and-ship workflows, to advanced EDI integrations, no shipping software helps you extract more value from your ERP than 3G Pacejet Shipping - part of the 3G Transportation Management & Shipping Software suite.

What does Fulfilled by Acumatica mean for you?

- Native integration, built and maintained by Acumatica, with no reliance on 3rd party build
- Operational flexibility to manage shipments within Acumatica or 3G Pacejet Shipping interfaces
- Guaranteed compatibility with an integration always updated to support the latest versions of the software
- Partnership with two of the most trusted names in shipping and ERP software

The power of 3G Pacejet Shipping within Acumatica

- Accelerated distribution with automated rating, shipping, and printing
- 3G Carrier Network with more parcel, LTL, and 3PL options than any other shipping software
- Unmatched order accuracy with tools for efficient scan-packing, address validation, data capture, and compliance labeling
- Higher output without added headcount, thanks to automation of many pack-and-ship functions

Find better shipping services at lower costs with Acumatica rate-shopping, powered by the 3G Carrier Network of LTL & Parcel carriers, and 3PL services.
