RENTAL COMPANY MANAGEMENT SOFTWARE

AcuRental Cloud ERP *powered by Acumatica*, is a rental management software that streamlines your operations by addressing all elements of business on a single platform managing requirements around rental orders including deposits, scheduled services, POS, equipment ROI, Projects, CRM, service, fixed asset, customer portal, projects, time cards, multi-currency/company, payroll, and insight via real-time dashboards.

HANDLE ALL ASPECTS OF RENTAL ORDERS

- **Flexible Invoicing Options**. Generate invoices upfront, periodically, upon return, set day of the month, set billing schedule or project's billing terms.
- **Time Based Availability**. View quantity available, on rental orders and on rent by item and drill down to orders to ship or return from rental dashboard.
- **User Defined Bill Code**. Price rentals based on user defined bill codes – daily, weekly, monthly, contractor month or based on hours / meter used. Manage hourly rental billing based on time of the day rented and returned.
- **Process Early, Late and Partial Returns**. Rentals are closed when all products are returned, and billing is reconciled. Generate final invoice or credit memo based on actual days on rent.
- **Inspections**. Ability to define required inspections (checklist) by rental equipment for rentals returned and to generate a repair document based on inspection results and set scheduled services settings.
- **Scan Shipments and Returns.** Scan rental products and equipment (serial numbers) during shipments or returns.
