

AI Advancing Commercial Service Work

ServiceTrade AI powers the next era of commercial service operations—by turning deep operational insight into automated action to eliminate busywork, preserve institutional knowledge, and drive measurable performance across the service lifecycle.

Let the system handle the routine

ServiceTrade AI eliminates the busy work and takes care of key workflows automatically, so your team can focus on the complex work that requires judgement, care, and expertise.

Turn experience into embedded intelligence

ServiceTrade AI works in lockstep with your people and data, and applies a decade of commercial intelligence instantly, so nothing slips through the cracks and your team can move fast without second-guessing.

Drive outcomes, not just outputs

AI focused on improving the metrics that allow your operation to scale revenue without grinding your team down, increasing throughput by compounding gains in time, accuracy, consistency.

What ServiceTrade AI is designed to do

- ✓ **Reclaim operational capacity** by removing repetitive coordination and admin work.
- ✓ **Unlock operational wisdom** by embedding standards and business context so execution stays consistent as teams scale.
- ✓ **Drive outcomes, not just outputs** by focusing intelligence on throughput, margin, utilization, and service performance.

POWERED BY
**Trade
Intelligence**

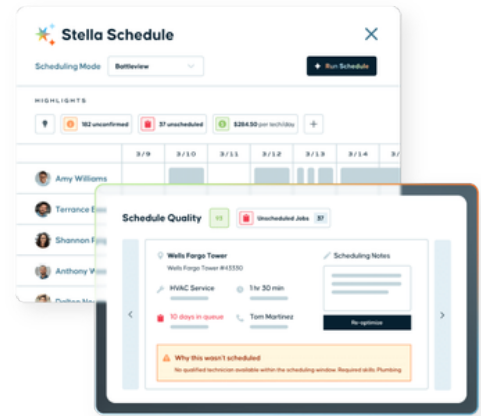

ServiceTrade AI is different. Built on Trade Intelligence — a data intelligence layer informed by **10+ years of commercial service history across 48 million assets** — it turns deep operational insight into automated, explainable action inside the workflows that matter most.

Embedded. explainable. Built for commercial service execution.

6X faster asset creation

90% cut in lookup time

95% acceptance on AI-generated communication

ServiceTrade AI is not a single feature. It is a platform that powers both agentic and assistive experiences – each built for execution.

SMART ASSISTANTS

In-the-field AI assistants to surface content and execute every job with confidence.

“What used to take me hours of building reports from scratch in our old system, I can now get answers to in minutes with the AI querying. I can focus on actually analyzing the data and making business decisions.”

Cassie Graves, Data & Operations Analyst
Fire Protection Services, LLC

“Instead of rebuilding scope or relying on memory and manual workarounds, Stella can help take a lot of the repetitive work off the team, create a more consistent starting point, and speed up turnaround.”

Ashley Rude, Service Manager
Envelop Group
