

Bring the Worlds of People, Finance, and Operations Together With Workforce Go's Bidirectional Integration with Acumatica

Siloed information and manual processes can cost your organization a lot of time and money. When you pair your Acumatica ERP with Workforce Go's award-winning workforce management platform, you get a fully unified system that reclaims your time, saves you money, and helps you make smarter, data-driven decisions.

Better Together

As the first workforce management platform to partner with Acumatica, Workforce Go has a long and successful history of providing tailored solutions for different industries. Just like with Acumatica, you can choose the modules and features that address your specific business pain points. Our seamless, bidirectional integration unifies the data from both platforms. The result is a fully customized system that can automate workflows and provide you with real-time data so that you can focus more on your growth.

Award-Winning Integration

Partnered with Acumatica since 2017, Workforce Go's reputation for excellence speaks for itself.

Our Mission

Our goal is to be your partner in problem solving. The most important part of our process is taking the time to listen and learn about your specific priorities and pain points. From there, we work together to tailor a solution that supports your needs. Our support doesn't end at implementation. You'll always have access to a dedicated team member who can answer your questions and offer support as your business grows.

Our Customers Are Talking

We are extremely excited about using Workforce Go. We were trying to find a solution to payroll and other related issues. We wanted to have something that integrated with Acumatica and was also a solution for timesheets.

- Milestone Construction

We were looking to integrate our Payroll with Acumatica. We love having Workforce Go as our new payroll solution. The software is easy to use, the support is great, and the integration with Acumatica makes our work seamless. We are excited to expand to new WFG modules in the future to keep all of our HR-related information in one place!

We get tons of value out of WFG's reporting feature. Each report is easy to navigate, filter, and customize so we can pull exactly the information we need. We also love the payroll processing flow. It steps us through each stage, ensuring that we don't miss any important steps. The whole process, from inputting hours all the way to integrating with our GL in Acumatica, is a breeze.

Core Benefits of the Integration

- Automatically sync employee information between Workforce Go and Acumatica — no delays, no duplication.
- Stay in sync with Acumatica sub-accounts, segments, projects, and tasks — ensuring consistency across platforms.
- Detailed payroll journal entries are automatically posted from Workforce Go to Acumatica.
- Leverage self-service tools for employees to access pay records, update information, request PTO, and more.
- Automate tedious, error-prone processes — freeing up your HR and payroll teams for strategic work.
